Saint David's Parish School

MISSION STATEMENT

Fostering a Faith Community

Informed and driven by the Josephite Tradition of education within a faith community, our community will ensure that the religious dimension of the school remains the focus of all school development. We develop and nurture partnerships with our families, the parish community and the universal church by providing curriculum, liturgies, resources and faith formation experiences that develop the care, compassion and religious traditions of our faith.

Developing a Learning Community

Curriculum development is guided by the Australian Curriculum and Crossways Frameworks for South Australian Schools. We will ensure that our planning, programming, assessment and reporting is aligned and reflects the needs of our students and is informed by contemporary, ongoing professional learning.

The Nurturing of Positive Partnerships

Our school is committed to developing and sustaining strong relationships with parents, carers, the student body, parish, the local education community and the wider community.

Supportive Operational Practices

Guided by government, system and local policies and procedures, we ensure that the school adheres to all compliance and accountability requirements to ensure the safety and wellbeing of all members of the Saint David's Parish School.

St Francis Xavier's Regional Catholic School

MISSION STATEMENT

Our mission at St Francis Xavier's is to work in partnership to educate young people for participation in the Church and our changing world.

We believe that Gospel values are at the centre of our school community.

We believe that all children have a spiritual need and that there is a sense of God in all that we do.

We believe that life is celebrated through the sacraments, especially the Eucharist, which is at the heart of our Catholic tradition.

We believe that children learn best in a caring, accepting environment.

We believe that when children are encouraged and supported they will experience success.

We believe that all children have a natural curiosity and desire to learn and that this should be nurtured.

We believe that education should be directed toward preparing children for the future so they can effectively contribute and constructively change the society in which they live.

Because we believe in providing the best education for your child, our direction is clear: we are aware of the need to be constantly evolving to meet the needs of our students, staff and parents.

We make a commitment to provide a safe and caring environment with an open approach to decision making.

Our school values success and relationships that are based on trust, respect and cooperation.
