COVID UPDATE #23

Monday 2 August 2021

Dear Families,

I hope that you are all keeping well. As promised in my last update, here is the impact of the latest information from our health authorities after their meeting earlier today.

From Thursday morning, the 5th of August:

- Masks – the current requirement remains. They must be worn in all high risk, public spaces and secondary schools. A reminder that the only exemptions from wearing a mask are for students or staff who have a medical condition, such as problems with their breathing, a serious skin condition on the face, a disability, or a mental health condition.
- Schools are permitted to recommence excursions and assemblies
- Choir and dance rehearsals can recommence
- All extracurricular activities can recommence
- School and community sporting activities including interschool competitions can recommence, however with limited spectators
- 50% physical distancing requirement comes back – 1 person per 2 sqm (where applicable in school settings; same as before)
- We continue to limit the number of adult visitors to the college where practical
- QR code COVID-Safe check-in remains a requirement for all visitors to the College.

Our increased daytime cleaning regime will continue for this next phase of restrictions.

More information regarding postponement or cancellation of events will be sent in due course to those families affected.

Thank you for your ongoing support and patience.

Joe Corbo,
Principal
